of the

## CITY GOVERNMENT, JANUARY 7, 1935

Mayor Lagace's Inaugural

Fellow Citizens:

We are entering into the second year of our administration. How many among certain citizens, who wished us premature death, have been disabused, we do not know. What comforts us, is to see Franklin after a year of activity as healthy as in the previous administration. "Justice and fair play to all," has been our motto; that is why we cannot but express a few reflections which this anniversary inspires in us; less in memory of what was happening a year ago, than for the encouraging promises that it brings us.

This does not mean that the ship of the city sails in abundance; that the vaults are full of money and the debt has been wiped out. No! what rejoices us, what brings us satisfaction, is that our city, without much outside help, as in the past years, has not only been able to subsist, but that it has been able to help, that it is conscious of having done its duty toward the poor, without endangering the credit of the city.

Assuredly, our administration has not received praises only, it has also received its part of criticisms. Far from being offended, it has always tried to profit from these criticisms as well as from the praises which it has encountered on its way. It is impossible to satisfy everyone.

It is uncontestable that our economic problems, for the past three or four years, have taken an importance that has escaped the attention of a great number of our population.

The unemployment question, a complex and complicated problem, whose fair and equitable solution, the best minds in this country are trying to solve, is here with us to stay and will demand more than ever our serious consideration.

It is not dishonorable to be poor but it is a bitter and terrible thing to face, the people are not poor because they desire to be, they are victims of a vicious and pernicious industrial system. People must live, and at the same time, the load must not fall on the shoulders of the property owners at the moment when they can least afford to carry it.

Some may say, some do say, that the city does not economize, that it does not diminish its debt, that it injudiciously increases its obligations year after year. That is an unjust accusation, for we should know that the obligations incurred have been for great public improvements which have added so much real value to her credit and to her embellishment. Be that as it may, I am not ashamed to say, that I do not think that at the present time, it would be good policy to accumulate dollars in the city vault, when there is so much misery amongst our people, rather I believe that these dollars should find their way into the pockets of the deserving poor, so that each and every one of them will have something to live on. The governments, cities and others are not instituted to amass great sums of money, their mission, as I see it, is to utilize for the good of their people, the capital that they can dispose, but they must be prudent, before risking the public's money, they must assure themselves of the sincerity and of the necessity of those who demand it. The people who are in need will find in Mr. H. F. Davis, an able and a friendly counselor and a prudent advisor. The city is fortunate in having such an able and disinterested official as Overseer of the Poor.

Economy-We will tell you frankly, we will do the very best we can to save the city's money, which is the people's money. What we have done last year, you all know. After so many distressing days, happy days are here again; our courage is coming back, and if there are still a few malcontents, as always, as it is inevitable, they are in the minority; in general, we are beginning to feel more satisfied with ourselves. Business is better in our industries, which have marked time during the last five or six years. Money is more plentiful in the banks. Our country roads and streets are in good condition, and this year will see the completion of a network of tar roads, surrounding our city. Our bridges, nine in number, have been completely rebuilt at a very low cost, due to the generosity of the International Paper Company. Our sewers, completed and in process of construction on Chestnut and Sanborn Streets this winter, will fill a want ardently desired and needed for many years.

The digging and improvements on the main settling basin of the water works will increase the capacity by one million gallons. The changes on the Plains give a better and more efficient service and fire protection to the citizens of that locality. The improvements to the high school and the addition to the Hancock School have provided adequate facilities for the present.

We have no recommendations to make at this time, we will adjust ourselves to circumstances as they present themselves. We will carry on as our predecessors have done, having always in mind the city's interest, welfare of its people. To continue this work, we depend on the steadfast sympathies which have

supported us to this day, which we hope will not fail us. We are assured that our friends will follow to the end of the road, that together we have followed for the last fifteen years.

For it is a fact, remarkable and constant, that there has developed between the citizens and ourselves, a sentiment of sincere solidarity which has repressed many assaults, an administration that can number such friends, has no reason to fear the future.

Our friends will permit us we hope, to add this testimony, of our thanks and gratitude which we address to all, on the occasion of our re-election and inauguration. For our part, we begin this second year with a firm determination not to cease to be worthy of their confidence, and to merit by a devotion that will not cease, that precious support by which we are honored.

More than once we have had to appeal to their generosity, and this appeal, we are glad to proclaim, has never been made in vain. We invite them again to help us in this work, which is theirs, belongs to them, as much as it does to us. As in the past, we will work together, for the city and for the poor.

This will be our reward, for having by constant effort, by repeated appeals for a new deal for everyone, poor and rich, been able to contribute our feeble effort to the financial and economic success of our beloved city.

Thank you!

# CITY GOVERNMENT

#### CITY COUNCIL

#### Mayor

Elected annually on the fourth Tuesday of November. Salary \$180 a year.

Alphonse Lagace, M. D.

#### Councilmen

Elected by wards for three years. One member from each ward elected on the fourth Tuesday of November annually. No salary.

	Term Expires.
Ward 1—Gardner C. Longfellow	January 2, 1936
George G. Fowler	January 2, 1937
Lester C. Maxfield	January 7, 1938
Ward 2—Albert J. Garneau	January 2, 1936
Philip Rousseau	January 2, 1937
Alphonse Pelletier	January 7, 1938
Ward 3—Roy C. Colby	January 2, 1936
Maxime A. Proulx	January 2, 1937
Walter J. Richardson	January 7, 1938
Philip Rousseau Alphonse Pelletier Ward 3—Roy C. Colby Maxime A. Proulx	January 2, 1937 January 7, 1938 January 2, 1936 January 2, 1937

### FIRE DEPARTMENT

### Engineer's Report

The following report from December 31, 1934 to December 31, 1935 is respectfully submitted:

The manual force consists of Chief Edgar H. Wheeler and assistant Leslie N. Boomhower, Engine Company No. 1, 15 men, Frank L. Hancock, captain; Hook and Ladder Company No. 1, 15 men, Albert Garneau, captain; Hose Company No. 1, 10 men, Alwin C. Dean, captain.

#### Location of Apparatus

#### Central Fire Station, West Bow St.

One American Lafrance, Type 75,750 gallon pumper with 60 feet of 4½ inch suction pipe, 40 gallon booster tank with 200 feet 1 inch booster hose, 1,000 feet 2½ inch hose, 2 play pipes with 1 1-8 inch tips, 2 pony 2½ gallon extinguishers, 3 canister gas masks, 1 portable electric battery searchlight, 1 20-foot extension ladder, 1 20-foot roof ladder, 2 overhead hose hoists, 10 uniforms, 1 Bresnan revolving cellar nozzle.

One Mack City Service Hook and Ladder Truck with 600 gallon pump and 40 feet 5-inch suction pipe, 500 feet  $2\frac{1}{2}$  inch hose, 2 play pipes with 1 1-8 inch tips, 281 feet ladders, 1 life net, 1 deluge set with 5 tips, 1 canister gas mask, 2  $2\frac{1}{2}$  gallon pony extinguishers, 2 salvage covers, 2 hose covers for use in traffic, 1 cellar syphon, 2 shovels, 6 forks, bars, axes, door openers, rope squegees and numerous other small tools.

One Reo Combination Chimney and Brush Fire Truck with 40 gallon chemical tank and 100 feet 1 inch chemical hose, 1,000 feet 1½ inch hose, 2¾ inch controlling nozzles, 1 2½ inch play pipe with 1 inch tip, 6 2½ gallon pony extinguishers, 1 portable electric searchlight with 150 feet cable, 2 24-foot extension ladders, 2 salvage covers, 1 axe, 1 bar, 1 battery hand light, 3 uniforms.

One Lincoln Special Service truck equipped with 2 Davis Pure Air Masks, 2 reels of 100 feet each 1 inch air hose, 1 inhalator, 1 First Aid Kit, 1 positive pressure air blower, 1 1½ K. W. Generator, 1 500 watt stationary searchlight, 1 250 watt portable searchlight with 250 feet rubber cable, 500 feet ½ inch rope, 2

salvage covers, 2 chests first aid supplies, 1 portable battery lamp, 1 7-ton hydraulic jack, 1 blanket, wrenches, hacksaws and numerous other small tools, 7 uniforms, 1 stretcher.

One 14 foot boat and trailer with grappling irons for use in searching for drowned persons.

#### Hose Company No. 1, South Main St.

One Chevrolet hose truck with 1000 feet  $2\frac{1}{2}$  inch hose, 2  $1\frac{1}{8}$  inch play pipes, 2 foamite extinguishers, 2  $2\frac{1}{2}$  gallon pony extinguishers, 1 extension ladder, 1 roof ladder, 1  $2\frac{1}{2}$  inch play pipe holder, 2 axes, 1 bar, 11 uniforms.

All trucks are equipped with up-to-date electric sirens.

#### Elm Avenue Hose House

One hand tub and 2 hand reels for storage only.

There is on hand at the Central Fire Station on West Bow street 2400 feet of  $2\frac{1}{2}$  inch hose in good condition, 500 feet of  $2\frac{1}{2}$  inch hose in poor condition, 3 forest fire tanks in good condition and 3 unfit for use; 6  $2\frac{1}{2}$  gallon pony extinguishers, 2 long handle round point shovels and 350 feet  $\frac{1}{2}$  inch rope.

There are four  $2\frac{1}{2}$  gallon pony extinguishers at City Hall and 1 at the Franklin Passenger Station to be used by any person for fire purposes in the vicinity of these places.

#### Recommendations

We recommend that 250 feet 2½ inch hose, 250 feet 1½ inch hose, and 100 feet 1 inch air hose for the air masks be purchased.

That a fire alarm box be installed at the Daniell Junior High School.

That a water hole be built at Cate Brook to give fire protection to a large number of homes in that section of the city.

EDGAR H. WHEELER, Chief Engineer.

LESLIE N. BOOMHOWER, Assistant Engineer.

#### Report of the City Marshal

To the Mayor and City Council of the City of Franklin:

At the present time the police department consists of five regular men and twenty-two specials. During the past year the police department has recovered and returned to owners lost and stolen property valued at one thousand three hundred dollars and eighty cents. There have been one hundred and twenty-four automobile accidents reported and investigated in 1935. In thirty-three of these accidents fifty-nine persons were injured and three were killed. There have been 490 lodgers put up at the local police station in the past year.

There have been 152 arrests for the following offenses:

Drunkenness	57
Manslaughter	2
Disorderly conduct	4
Non-support	2
Aggravated assault	2
Simple assault	3
Larceny	8
Keeping liquor for sale	1
Illegal possession of liquor	1

### PUBLIC LIBRARY

### Report of Librarian

To the Trustees of the Franklin Public Library:

During the past year there have been many changes at the Public Library. Mrs. Shirley's resignation and subsequent removal to Durham has left a vacancy in the community and the library which cannot soon be filled. With an unusual knowledge of books and a sincere interest in the public and the town, she spent long years of thought and labor in making the library a place of usefulness and warmth within and a thing of beauty without. Surely the community lost much when she left.

The November ruling in regard to the payment of overdue fines and rentals has had a desirable effect. Borrowers have cooperated well by returning books more promptly and in paying charges against them. However, the library has outstanding charges of \$37.41 although only eight people have exceeded the one-dollar limit.

Because the students have understood the reason for the rule which limits their time in the library, their cooperation has been remarkable, and now the reading rooms are free after six o'clock for those adults who enjoy the privilege of reading books or current magazines in the quietness of the library.

The accession number, that is, the number of books added to the library since it was opened, is 25,575. The actual number of volumes now owned by the library is 20,059. This shows that 5,516 volumes have been discarded because they were worn out or lost during the twenty-nine years that the library has been open. Considering that the circulation has always been large in proportion to the number of books owned, it is remarkable that only an average of 190 have been discarded every year.

The following statistics show several things of interest. Although the total circulation for 1935 shows a decrease of about 8,000 from that of last year, the decrease has been in fiction. The circulation of non-fiction, both adult and juvenile, has increased. The magazines have circulated much more, and the circulation of books in languages other than English has decreased. The number of new books added this year is much less than for many years.

#### Superintendent's Report

To the School Board of Franklin:

I herewith submit my annual report as superintendent of Franklin schools, the thirty-fifth in the series of such reports.

Probably at no previous time has the physical condition of the school plant as a whole been so satisfactory as at present, with all the buildings painted on the inside, and the Hancock and Junior High on the outside. They present a pleasing, clean and sanitary condition; pleasing not only to the pupils but to all citizens who take pride in the upkeep of public buildings.

One of the most satisfactory improvements made has been the installation of the Johnston heating system in the Parker Hancock building. This system is not only providing properly regulated and uniform temperature but adequate ventilation. Only an eight ounce steam pressure is necessary. This means a decided saving in the heating cost of this building over the old displaced system, probably nearly three hundred dollars a year. It is a fact that while the capacity of this building has been doubled the heating cost is now less than before; and beside this, the uniform heat with its accompanying ventilation more efficiently safeguards the health of the children.

The wisdom in constructing the four room addition to the Parker Hancock building thus enabling the grades, previously housed in the high school, to be transferred there, has been conclusively proved this fall term, since every room in the High school building on all three floors is now used for high school classes, with none too much room.

New walks have been laid and old ones repaired making the approaches to the high school and Hancock buildings better and more convenient.

Because of the increased enrollment in wood working it was necessary to enlarge the shop at junior high fully a third, most of the work being done by the pupils. This enlargement made it necessary to increase the heating radiation which, of course, meant extra expense. We now have a shop adequate in size to accommodate the present and anticipated pupil enrollment.

I doubt if many citizens of Franklin realize what splendidly equipped machine and wood working shops we have. I doubt if the equal of our machine shop can be found in the state when you consider the real practicability and usability of the entire equipment. We have no machines not actually used each day.

The changes recommended in the curriculum in last year's report have been made, viz: making Economics and Sociology each a full year's course instead of half year and giving more emphasis to Biology. To aid the work in Chemistry, Physics and Biology an excellent Bausch and Lomb Micro-Projector has been purchased. This apparatus will add much interest to the science instruction.

The high and junior high schools continue to increase their enrollment, while the grades show but little change from year to year. (See Table II). This last year, classes in high school have been large, necessitating increasing the number of divisions and engaging an extra teacher for part time.

The teachers all agree that the morale of the pupils and interest in their work never has been better than during the fall term just closed.

The activities of the schools have been varied, well conducted and helpful, and have reflected credit upon those in charge. Baseball, football, hockey, basketball, track, tennis and golf have been the sports with school teams in each. Dramatics, glee clubs, choruses, school and class socials, skiing, skating, snowshoeing, hiking and class outings have been other activities spon-

sored by and engaged in by the scholars. When so much is being said and written about the "Youth Movement" it is worthy of note that practically the most that is being done in Franklin for youth along the line of entertainment, preparation for proper use of leisure time, healthful exercise, and youth guidance is being done through the school activities.

The community interest in the youth movement is too inactive; it is too vital a thing to entrust to a single unit of the civic organizations of the city for most efficient results. While the schools are doing much, their efforts, however, are confined principally to the older boys and girls from the seventh grade up through high school. There is plenty of evidence that preventive and remedial measures for criminal tendencies should begin in lower grades than seventh. A municipal playgound, well equipped and properly supervised is a need that becomes more and more apparent in every city as an instrument, and a powerful one, of counteracting the urge of youth for action and excitement of the wrong type. That the work of the schools may be more efficient in developing good citizenship and contented individuals in the midst of discouraging prospects for youth, there is need of a good foundation being laid by other agencies than the schools among children from six to twelve years of age. Character building must begin with the child.

#### Nursery School

The Nursery School organized a year ago and financed by federal aid has been a great success. Twenty-seven children were enrolled and the average attendance from December, 1934 to August, 1935 was 22.

The present enrollment is 23. It has been expected that a second school would be started in the Hancock building, but at the present time neither funds nor teachers have been available.

#### Adult School

The Adult School was largely patronized and the attendance average was high until the latter part of January, when gradually it began to decrease and the number of teachers was reduced from seven to two, and in May the school was closed. It is hoped another school will be organized sometime in January.

#### School Socials

A valuable part of the school program is the school parties. It is one place where parents feel that their boys and girls can go for social enjoyment with proper environment.

This last year because of the increased size of junior and senior high classes and the limited capacity of the gymnasium, is has been necessary to confine some of the socials to one class. some to two classes. This arrangement was like leaving one member of the family at home because there was room for only two in the car.

Through the kindness of the City Council this unsatisfactory condition is now remedied by our being granted the use of the Opera House for school socials. Pupils, teachers and all of us concerned, appreciate this privilege.

#### Health

The school nurse is a busy individual and very much alive to the responsibility of her work. If one could seen the number of pupils consulting Miss Moynihan, in the morning, at noon and in and out of school every day, they would realize that the children are being closely guarded against disease and that little accidents as well as greater ones are being cared for faithfully. The nurse has educated the pupils, from the lower grades to the higher that it is unsafe to let bruises or scratches, big or little, go uncared for. In consequence Miss Moynihan has had to minister not only to slight scratches on the fingers of the children but also to the more serious mishaps of the football and hockey teams. It is a healthful situation when it becomes practically a habit for the pupils of all ages to come to the school nurse for relief from physical discomforts as soon as they arrive So many are now coming to the nurse that her at school. office is sometimes, in fact often, overcrowded. This is due in part to the fact that the office of the school nurse is also the teachers' cloak room. The inconvenience, and very often embarrassment of such an arrangement should be remedied. Either the teachers should be provided with a different cloak room or the nurse with more adequate and private quarters.

That school trends and school progress in general may be followed more conveniently, I am submitting for consideration four tables with comments.

The first has to do with appropriations, expenditures, registration, number of teachers, salaries, graduates and tuition receipts for the last ten years (1926-1935).

Table I

	Appropriation by City	Total Expenditure for schools	Total Registration for year	No. of teachers	Total Salary of Teachers	No. Graduates from H. S.	Amount of Tuition Received
1926	\$71,736.00	\$75,840.60	982	40	\$46,983.27	38	\$3,030.25
1927	73,826.00	78,363.22	997	41	49,536.37	46	3,558.87
1928	78,489.00	83,192.51	962	41	50,620.81	30	3,390.41
1929	78,000.00	81,700.87	982	40	49,318.68	42	2,724.26
1930	78,520.00	81,727.79	1019	42	51,054.76	53	2,514.92
1931	78,520.00	82,515.93	1024	42	52,341.04	41	3,119.22
1932	72,400.00	77,235.97	1068	40	50,614.47	50	3,935.26
1933	67,500.00	73,014.40	1076	41	48,776.42	52	4,101.10
1934	68,234.66	75,949.96	1092	42	49,255.32	72	6,014.62
1935	71,337.71	77,749.75	1130	43	51,194.19	65	5,379.09

This table shows less money appropriated for the schools in 1933-34-35, than in any of the ten year period from 1926-35. It shows less for schools in those years than in six previous years though the number of pupils had increased from 982 to 1130. The largest expenditures were in 1928-29-30-31. Then came the retrenchment period, salary cuts, etc., reducing expenditures from \$82,515.93 in 1931 to \$73,014.40 in 1933. This reduction was made possible not only by salary reductions but by abandoning many planned improvements and consenting to needed equipment waiting for a more convenient time. A few of these things have been provided this year and more should be in 1936.

This table also shows that the number of teachers in 1935 was three more than ten years ago, while the number of pupils had increased 148.

Tuition receipts have nearly doubled in the ten year period. There will be a loss of tuition in 1936 as Andover now has a high school of its own and is not obligated to pay tuition elsewhere.

The second table shows registration by schools and number of teachers by schools over a ten year period.

Table II

#### Registration by Schools 1926-1935

	1926	1927	1928	1929	1930	1931	1932	1933	1934	1935
High	137	135	151	162	158	164	207	240	253	248
Junior High	234	237	222	249	263	274	283	310	296	325
Grades	611	625	589	571	598	586	578	526	543	557

i i

#### Number of Teachers by Schools

	1926	1927	1928	1929	1930	1931	1932	1933	1934	1935
High	9	9	9	9	9	10	10	11	11	12
Junior High	11	12	12	12	12	12	12	12	12	12
Grades	20	20	20	19	21	21	18	18	19	19

This table shows how the registration has gradually increased in the junior and senior high schools and since 1927 how the grades have tended to decrease.

The number of teachers has not been fewer than 40 in the ten years from 1926-35 and is now 43.

The third table shows over a period of five years the number of pupils entering the 9th grade after graduation from 8th grade at junior high, following these same pupils on through high school to show the number and per cent of those graduating.

Table III

	No. promoted to 9th grade in June from Jr. High 8th grade	No. entering 9th grade in Sept.	% entering 9th grade	No. of those entering 9th grade who completed high school in:	% of those entering 9th grade who completed high school in :
1928	50	43	86%	1932-29	1932—67%
1929	56	56	100%	1933—39	1933—70%
1930	74	69	93%	193449	1934—71%
1931	72	65	90%	1935—37	1935—57%
1932	68	64	94%	1936— ?	1936— ?

Before the organization of the junior high school under the old 7th and 8th grade system the per cent of those entering high school over a period of five years, 1918-22 was 69. This table shows that from 86% to 100% have entered high school after being promoted from 8th grade, and that a large per cent of these continued and graduated from high school.

If 40% of an entering 9th grade class under the old system had graduated from high school it would have been considered a high per cent.

Why the high per cent now? Because, in the junior high subject matter is made practical and appeals to the varied interests of the pupils. This interest holds and carries over nearly every pupil into 9th grade.

The high school, too, offers more helpful, more practical, and more interesting subjects and thus continues to hold a larger and larger number to graduate.

The fourth table is similar to the third; the difference being that this table shows the number and percentages of all children entering the 9th grade—out of town children and Parochial graduates added to those from junior high.

Table IV

	Total number entering 9th grade from all sources	Number who completed the High School Course in :	% of those completing High School Course
1928	77	1932—50	65%
1929	88	1933—58	66%
1930	95	1934—72	76%
1931	107	1935—65	61%
1932	126	1936— ?	?

Here again, note the large per cent completing the high school course.

#### Recommendations

All the school buildings are now equipped with modern sanitary arrangements excepting the Nesmith School. The present arrangements there are unsatisfactory and unsanitary. The next improvement in our school buildings should be to install modern toilets in the Nesmith School and a better heating and ventilating system.

In 1927 the School Board voted to equip two grades each year with modern school furniture; this policy was carried out for three years and then necessarily postponed.

I hope that at least one grade room may be equipped this coming year.

I have spoken elsewhere of making more suitable quarters for the nurse at high school.

#### Finances

The annual cost of maintenance of the Franklin Schools for the past thirteen years has each year been considerably lower than the average of schools in the state offering similar advantages.

For example the total average cost per pupil, Grades I—XII for the past three years:—

In Franklin	In the State
1933—\$74.70	1932-33—\$81.22
1934—\$76.95	1933-34—\$79.03
1935—\$77.16	1934-35—\$82.32

The average total cost per pupil in the Franklin High School for the year 1934-35 was \$78.97. The median for the state was \$99.45.

The average total cost per pupil in the Elementary Schools of Franklin in 1934-35 was \$63.31. The median of the state was \$76.93.

These figures show we are keeping the average cost per pupil below that of the state in both Elementary and High School.

#### School District Meeting

At the annual meeting of the school district December 28th, Mrs. Lura Daniell was reelected for the three year term.

#### SCHOLARSHIP FUNDS

#### Sanger Scholarship

Resolved by the Board of Education of Franklin:

Whereas, Warren F. Daniell has by his written communication addressed to the Board of Education, expressed his intention of establishing a free scholarship for graduates of the Franklin High School in Simmons College in honor of his mother, and to be known as the "Sanger Scholarship", and agreeing to pay annually a sum sufficient to pay the costs of tuition for one student for four years in any of the courses described in the catalogue of the College, and

Whereas, a student to be awarded this scholarship must comply with the following regulations: First, she must have completed four years' satisfactory work at the Franklin High School; second, her parents must reside in Franklin; third, the student's parents must be unable without undue deprivation to pay the tuition themselves.

Be it resolved: That the Board of Education of the City of Franklin fully appreciate the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young women of said city, thereby creating an additional incentive for higher educational advantages: and

Be it further Resolved: That said Board of Education willingly accepts said trust: and

Be it further Resolved: That a permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Headmaster of the High School of said city, and

Be it further Resolved: That this resolution shall be printed annually in the school report of said Board.

#### Franklin Student Aid Fund

To the Mayor and Members of the City Council, Franklin, N. H.: In June, 1921, I placed with Dartmouth College at Hanover, N. H., a fund of \$2,500.00—the income from which I wished to be used to assist under certain conditions students at that institution who were residents of this city.

It was found incompatible with the methods of disposing of the funds at Dartmouth College, to handle this fund under the conditions which I wished to impose—and for that reason I have transferred this sum from Dartmouth College to the City of Franklin.

I am attaching herewith the securities representing the fund together with a statement of the methods I wish followed in disposing of the income from the fund.

Respectfully yours,

WALTER F. DUFFY.

#### Franklin Student Aid Fund

Established by Walter F. Duffy, June, 1921.

A sum of \$2,500.00 is entrusted to the City of Franklin, N. H., the income from which is to be used to assist worthy boys and girls, residents of this city, to secure a collegiate education or its equivalent.

The recipients of the income from this fund are to be selected by a board of three consisting of the Chairman of the Board of Education, Superintendent of Schools and Principal of the High School of the City of Franklin, N. H.

The income from this fund is to be disposed of under the following fixed conditions:—

#### I. Scholarship

A student must attain such satisfactory standing in studies as to make it apparent to the authorities of the institution of learning where he attends, that it is advisable that the student pursue his studies and that he is on this account worthy of financial aid.

#### II. Financial Needs

It is to be required that the students who receive benefit from this fund shall be obliged, through lack of family financial resources, to earn at least a substantial part of the money necessary to meet the expenses of their attendance upon their studies.

#### III. General Restrictions

It is to be understood that in alloting the proceeds of the fund, preference is to be given to students at Dartmouth College, Hanover, N. H., who are residents of the City of Franklin, N. H. If no such students apply for the benefits of this fund, then the income can be used to assist any boys or girls who are residents of the City of Franklin, N. H., and who are pursuing a course of studies in any institution of learning giving a collegiate education

or its equivalent, provided that the-first two conditions covering the disposition of the benefits of this fund are fulfilled.

It is also to be understood that the income from this fund may be divided between two or more students, and that any students who receive financial aid from the institutions of learning where they attend are not thereby prevented from receiving aid from this fund.

If no students fulfilling the above requirements apply for the benefit of this fund the proceeds may be used as they accrue each year as seems best to the three persons mentioned above for the general educational good of the citizens of Franklin, N. H.

#### Daniell Scholarship

In the year of our Lord one thousand nine hundred and fourteen.

A resolution relating to the "Daniell Scholarship".

Resolved by the City Council of the City of Franklin, as follows:

Whereas, Jere R. Daniell of New London, Connecticut, on the second day of April 1914, by his written communication of that date, addressed to the Mayor and Council of the City of Franklin, expressed his intention of establishing a free scholarship for graduates of the Franklin High School to the Massachusetts Institute of Technology, in memory of his father, the late Warren F. Daniell, and to be known as the "Daniell Scholarship", and together with his letter of the 16th of May, 1914, in which he agreed to give the sum of two hundred and fifty dollars each and every year, hereafter, beginning September 1st, 1914, to cover the cost of tuition for one student for four years in any one of the courses described in the catalogue of the Institute, and,

That a student to be awarded this scholarship, in whole or in part, must comply with the following named conditions:

First. He must have completed four years' satisfactory work at the Franklin High School.

Second. His parents or parent must reside in Franklin, and be unable without undue deprivation, to pay the tuition required themselves.

Third. He must show during his four years' work at the High School, marked ability in some one of the several subjects covered by the Institute courses. In case several candidates present themselves in any one year, the scholarship will be awarded by competition in the entrance examinations for the Institute. The candidate entering with highest standing to receive the award.

A holder of the scholarship will be expected to maintain the same standard of work at the Institute as that required of holders of regular Institute Scholarships and the scholarship will be withdrawn in case the work is unsatisfactory.

The right is reserved to divide the amount of the scholarship among several applicants should such action seem desirable.

Be it Resolved, That the City of Franklin fully appreciates the spirit that prompted Mr. Daniell to establish this scholarship for the benefit of the young men of said city, thereby creating an additional incentive for higher educational advantages in those who through misfortune or adversity would otherwise be prevented from obtaining the same; and

Be it further Resolved, That said City willingly accepts said trust, and does hereby direct that the annual payment of the sum of two hundred and fifty dollars shall be made to the City Treasurer, who shall pay the annual tuition of said student or students upon the presentation of the bill for same by the Bureau of the Institute, and,

Be it further Resolved, That a Permanent Committee on Scholarship shall be established to consist of the Chairman of the Board of Education, the Superintendent of Schools and the Principal of the High School of said City of Franklin, and

Be it further Resolved, That this resolution shall annually be printed in the reports of said city.

Approved,

W. W. EDWARDS, Mayor.

Passed June 1, 1914.

Finance, to consist of the Mayor and two members of the Council.

Passed, January 7, 1935.

Approved: DR. A. LAGACE, Mayor.

In the year of our Lord one thousand nine hundred and thirty-five.

A Resolution relating to hiring money.

Resolved by the City Council of the City of Franklin, as follows:

That the Mayor and City Treasurer for the time being, are authorized to hire money to pay the current expenses of the several departments, and any outstanding notes, bonds, or evidences of debt of the City becoming due, and to give promissory notes of the City therefor.

Passed, January 7, 1935.

Approved: DR. A. LAGACE, Mayor.

In the year of our Lord one thousand nine hundred and thirty-five.

A Resolution relating to receiving deposits to apply on taxes and discounts.

Resolved by the City Council of the City of Franklin, as follows:

That the Tax Collector be authorized to receive deposits to apply toward the payment of taxes when taxes are assessed or payable.

Deposits made or taxes paid shall be subject to discounts as follows:

On or before March first,	$4\frac{1}{2}\%$
On or before April first,	4%
On or before May first,	$3\frac{1}{2}\%$
On or before June first,	3%
On or before July first,	$2\frac{1}{2}\%$
On or before August first,	2%

Except that no discounts shall be made on poll taxes.

Passed, February 4, 1935.

Approved: DR. A. LAGACE, Mayor

In the year of our Lord one thousand nine hundred and thirty-five.

A Resolution relating to the death of Assistant Engineer John E. Cunningham.

Resolved by the City Council of Franklin as follows:

That in the death of Assistant Engineer John E. Cunningham as Fireman for thirty-five years of which he was Captain for four years, and Assistant Engineer for twenty-seven years, our City Government has lost an able and honored public servant. A fire fighter who was competent and faithful and straightforward. Honest dealings won the respect and confidence of the citizens of Franklin that the Council wish to express their appreciation of him as a citizen and public servant by making this resolution a matter of record.

Resolved that this resolution be made a matter of public record in the archives of the City and copy be transmitted to the family of the deceased.

#### Fire Committee:

Albert Garneau, Roy C. Colby, Walter J. Richardson.

Passed, June 3, 1935.

Approved: DR. A. LAGACE, Mayor.

In the year of our Lord one thousand nine hundred and thirty-five.

and the sum of \$99,516.77 to meet the current expenses provided for by the appropriations made and the same be appropriated with other revenues of the City to meet the same.

Passed, July 31, 1935.

Approved: A. LAGACE, Mayor.

In the year of our Lord one thousand nine hundred and thirty-five.

A resolution relating to extension of time of discount on 1935 taxes.

Resolved by the City Council of the City of Frankiin as follows:

That the Tax Collector be authorized to extend the time of discount at the rate of 2% on real estate taxes for the year 1935 to the 15th day of August, 1935.

Passed, July 31, 1935.

Approved: A. LAGACE, Mayor.

## **ORDINANCES**

An Ordinance regarding the sale of artificial flowers and miniature flags.

In the year of our Lord one thousand nine hundred and thirty-five.

Be it ordained by the City Council of the City of Franklin, as follows:

Section 1. No person, except as hereinafter provided, shall sell or offer for sale in the streets or other public places of this city any artificial flowers or miniature flags.

Section 2. The Mayor and City Council may, in their discretion, authorize from time to time the sale or offering for sale in the streets or other public places of this city of artificial flowers or miniature flags by the Grand Army of the Republic, United Spanish War Veterans, Veterans of Foreign Wars, the American Legion, the auxiliaries of these organizations and other recognized charitable, fraternal or military organizations of this city.

Section 3. This Ordinance shall not prohibit the sale or offering for sale of artificial flowers or miniature flags by recognized business establishments.

Passed, June 3, 1935.

Approved: DR. A. LAGACE, Mayor.

## AMENDMENT TO ORDINANCE

Amendment to Ordinance in regard to first section of the Buildings, signs, awnings, trees ordinance.

Chapter 6: Buildings, signs, awnings and trees. Amend section 1, chapter 6 by adding after the word bridge, in the third line the words "on the South side of Central Street between Sanborn bridge and Church Street", so that Section 1, Chapter 6 as amended would read:

Chapter 6. Buildings, signs, awnings and trees. Section 1. No building shall hereafter be erected on the North side of Central Street between Sanborn Bridge and Daniell Bridge, on the South side of Central Street between Sanborn Bridge and Church Street, or on Franklin Street between Central Street and Church Street, except the same is constructed with solid outside brick walls at least twelve inches thick or constructed with fire resisting material approved by the City Council.

Passed, November 4, 1935.

Approved: A. LAGACE, Mayor.

# AUDITOR'S REPORT

To the Honorable Mayor and Council of the City of Franklin:

I have carefully examined and verified the books and accounts of the City Clerk, Treasurer, Tax Collector, Board of Water Commissioners, Superintendent of Water Works, Board of Education, Park Commissioners, Trustees of Trust Funds of the City of Franklin, Clerk of Municipal Court and Trustees of the Public Library and find all receipts properly accounted for and vouchers corresponding to all expenditures and find the following balances to the credit of the City:
